

Mobile Depot and Workshop DC Charger

30 kW Mobile Charger

CCS2 Standard

Easy to use control panel and handles

Large wheels help moving

The Enerqo 30 kW (43A) mobile charger makes charging any CCS2 vehicle easy at workshops or depots.

Small form factor, big wheels and clear user interfaces make it a perfect solution for temporary charging of any vehicle.

Connection to electricity is with standard 63A power plug, so it comes ready to be plugged in already existing workshop power sockets. A 63A to 32A plug adapter is available as an option.

Default charging cable is 7 meter long CCS2 cable.

Technical Specification

Power rating	30 kW, 43A DC
EV connector	CCS, 7 meter cable
Output voltage	250~750 V _{DC}
Input voltage	400 V _{AC}
Maximum input current	48 A
Size (w,d,h)	590 x 335 x 440 mm
Weight	40 kg
Case safety ratings	IP32
Operating temperature	-0°C to +50°C
